

RENTPREP CREDIT DECISION REPORT (powered by TransUnion)

Below are two separate sample Credit Decision Reports. These are examples of what a report will look like when the tenant applicant fails.

To the right is an example of a "Pass" Credit Decision Report.

You will not receive any codes on PASSED reports because your applicant met your credit criteria

A Credit Decision Report can be added to any RentPrep Background Check. It cannot be added to a TransUnion Full Credit Report (or ordered as a standalone product as of 2/1/19).

When you add this report (via add-on options in the ordering process) you will select your credit criteria and this additional report will be included inside of your final tenant screening report.

The RentPrep knowledgebase has additional context on what credit codes mean and screeners are available for support.
